

## **BALL & CHAIN**

**I carry my grief for you like a ball & chain  
If it wasn't for her I'd surely have gone insane  
All there'd be is a boy in pain  
I carry my grief for you like a ball & chain**

**Every silver lining comes with a cloud  
Its coming in clear and its coming in loud  
Gotta hold up your head, stand tall and stand proud  
Every silver lining comes with a cloud**

**I dream of a time that I can barely recall  
Big man watching over me, star-eyed and small  
The landlubber down below, just a giggle-shaped ball  
I dream of a time that I can barely recall**

**Hold me once more then please leave me alone  
And I'll spread your ashes on top of his bones  
I'll sing you this song and then head on back home  
Hold me once more then leave me alone**

**I carry my grief for you like a ball & chain  
If it wasn't for her I'd surely be insane  
All there'd be is a boy in pain  
I carry my grief for you like a ball & chain**

**I dream of a time that I can barely recall  
Big man watching over me, star-eyed and small  
The landlubber down below, just a giggle-shaped ball  
I dream of a time that I can barely recall**
