

DEDICATED TO YOU

**Lady says she loves me
But then she loves all the others
She just can't let those pretty boys be
She says, You know that I would
If only I could
But honey, I just got to be me**

**She said, Hey, hey dearie
Don't be so dreary
You know I'll always save some for you
But ther are other boys
And other joys
And I feel I got to get what I'm due**

**So I said, Bye, bye, baby
To share you would be crazy
You know that's something I just can't do
And now I'm back on my own
Far from my home
But I remain dedicated to you
This song is dedicated to you**

**Lady says she loves me
But then she loves all the others
She just can't let those pretty boys be
She says, You know that I would
If only I could
But honey, I just got to be me**
