

## **GOD DAMN GOD**

**I see the beauty in a butterfly  
I see the beauty in a bee  
I can see beauty in almost anything  
Hell I can even see some beauty in me**

**But I see no beauty in a child who dies  
Because of some politician's lies  
They say God is love with mercy to spare  
But I see no proof that he even cares**

**God damn God  
That motherfuckers run amok  
God damn God  
That motherfucker must be stopped**

**I lost my Uncle in 45  
God fucked up my Momma before I was even alive  
He was just a boy, a son and a brother  
Never got to be a man, a father or a lover**

**I buried my Daddy when I was 10  
Where was God and what was he doing then  
How can that be part of any plan  
How can we be expected to understand?**

**God damn God  
That motherfuckers run amok  
God damn God  
That motherfucker must be stopped**
