

HANALEI BAY

**I'm so sorry, What can I say?
It's time for me to be slipping away
I still love you, I still care
Come see me sometime, If you dare**

**If you need me, Night or day
You can find me on Hanalei Bay**

**Goodbye Jo, Never wanted you to go
There's a hole in my heart But it's on with the show
Hey hey El, It sure was swell
But now that you're gone It's just another day in Hell**

**I'm so sorry, What can I say?
I'm headin' off to Hanalei Bay**

**I'm a boat without a rudder, Adrift at sea
Ain't got no buddies, Sailin' with me
I'm looking for a harbor, Safe and warm
But you know what they say, Any port in a storm**

**Sometimes it seems
You got to lose your mind
Before you can see
What you need to find**

**I still love you, I still care
Come see me sometime, if you dare
If you need me, night or day
You can find me on Hanalei Bay**
