

SOULMATES

**Need you to be with me honey
All of the time
Don't know what I'd do baby
If you weren't mine**

**Now I'm not half the man
That I wanted to be
But there's still hope for me darlin'
Just wait and see**

**Waiting on fortune and fame
To take me away
When all that I need now baby
Is right here today**

**Somebody smiled on me honey
The day you were born
Decided, together, we'd always be
Safe and warm**

**Now I'm not the kinda guy
Argues with fate
We'll travel together, forever
Cause honey...
We're soulmates (3x)**

**Need you to be with me honey
All of the time
Don't know what I'd do baby
If you weren't mine**
